DETAILED ACTION

Status of Claims

Claims 8-10 were previously rejected and claims 1-7 were allowed. Claims 8-10 have been cancelled. Claims 1-7 are currently pending.

Allowable Subject Matter

Claims 1-7 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

With respect to claim 1, though the prior art discloses spectroscopy that resolves a light beam into separated light beams having various wavelengths, and selects and extracts a separated light beam having an arbitrary wavelength from among these separated light beams, comprising: masks disposed such that a transmission area of each of the separated light beams in a spectrum direction is limited; where said spectrum direction denotes a direction of the arrangement of these separated light beams when viewed against the line of the resolved separated light beams, wherein: said masks include mask members which are movable closer to or further away from each other so as to adjust a first length of said transmission area in said spectrum direction, the prior art of record fails to teach or suggest the aforementioned combination further comprising a pair of first mask members and a pair of second mask members which are all independently movable so as to adjust, respectively, a first and second position of the transmission area in a direction in said spectrum direction and perpendicular to said spectrum direction.

Art Unit: 2872

With respect to claims 2-7, these claims depend on claim 1 and are allowable at least for the reasons stated supra.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
